C I P S

From Chairman's Desk

Capt. Kuldeep Singh is a highly disciplined and accomplished Indian Army veteran with over 30 years of distinguished service in leadership, training, safety, and operational management. Throughout his military career, he successfully led large and diverse teams, managed mission-critical operations, and developed high-performance training and mentoring programs.

**30+ Years Experience |
Indian Army Veteran**

For decades, AKT Services has been privileged to partner with organizations across industries, helping organizations across diverse industries to unlock hidden capacity, improve process stability, and achieve operational excellence. We are deeply grateful for the trust you placed in us, which has been the cornerstone of our growth and the driving force behind our commitment to “Think **Different**, Execute **Simple**, and Stay **Flexible**”.

To better serve this evolving demand for integrated, end-to-end solutions, we are proud to announce our expansion into a new, more robust entity: **DXE India Private Limited**.

The DXE India Advantage: DXE India is a natural evolution of the legacy built by AKT Services. While AKT Services remains a pillar of support, DXE India introduces a broader, multidisciplinary ecosystem of seasoned experts. By bringing together top-tier domain specialists in Manufacturing Excellence, Sustainability, Reliability Engineering, Digital Transformation, and Human Capital Development under one platform, we offer a unified approach to business performance. Our core philosophy remains simple yet uncompromising: **Zero Error , Flawless Execution.**

“

At DXE India, we don't just consult — we partner with you, delivering military-grade accountability at every step.

Because for us,

“Excellence Isn't Just a Goal. It's Assured.”

“Transforming Compliance into Competitive Advantage”

We empower organizations to build trust, resilience, and credibility through robust assurance practices. Our expertise ensures that compliance is not just about meeting standards—it becomes a catalyst for operational excellence and sustainable growth.

ESG Initiatives:

Aligning operations with global sustainability standards and stakeholder expectations. We also help to drive sustainability, minimize operational risk, and attract investment.

Management & Excellence Solution:

Designing and implementing PQCDSM framework systems that drive efficiency and accountability. We train executives in multiple excellence models like WCM, TQM, TPM and Lean Management.

ISO Certifications:

Guiding organizations to achieve globally recognized standards such as ISO 9001, ISO 14001, ISO 45001, ISO 27001 and IATF/VDA 6.3 that enhance market reputation.

Capability Development:

Building skills and knowledge that embed management systems into organizational culture. Helping organizations pursue the Deming Prize and IMEXI Prize, TPM award and other excellence certifications including handholding to unlock additional business opportunities and production capacity.

Compliance Audits:

Delivering rigorous, independent evaluations to strengthen governance and risk management.

Gap Assessment:

Identifying system, safety, environment and compliance gaps, turning them into opportunities for improvement.
